

Historical Actuality of the Socialist Offensive: Alternative to Parliamentarism, 2010, István Mészáros, 1905192614, 9781905192618, Bookmarks, 2010

The number of people voting in general elections has reached historic lows. This was true even before the revelations of widespread abuse by MPs of their remarkably generous expenses last year. Istvan Meszaros shows that the problem goes far deeper than duck houses, moat cleaning bills and the corruption of individuals or even of whole parties like New Labour. He launches a sustained philosophical attack on the very notion that parliament could ever provide a means of removing capitalism and creating a more just society.
